

16 June 2022

Dear Parent/Carers

We are delighted to inform you that our application for increasing capacity has been approved by the Department for Education. This includes opening the Satellite Provision at Hastings Primary School for the academic year 2022-2023 and the subsequent inclusion of modular classrooms at Forest Way.

Thank you for your feedback which we included within the application. Initially we will be focusing on setting up the classrooms at Hastings, but once we start to plan the modular building, we will ensure that we provide opportunities to share this information with you.

We will also be carefully considering the issue of the traffic flow on the site.

Please contact us at school if you wish to discuss anything further.

Yours faithfully

Gail Seaton
Headteacher
