

Forest Way School, Thematic Learning Journey

***Careers is be embedded in all curriculum areas**

Career exploration in EYFS is integrated through imaginative roleplay and exposure to a diverse range of work roles. By providing positive, non-stereotypical role models across many professions, we encourage children to think critically about their own potential without limits. This inclusive approach offers a means for children to apply their social skills to new situations, fostering the ambitious and reflective mindsets necessary for their future development.
