Post 16 Key Stage 5 Wider Curriculum Map 2022-2023

Post 16 Key Stage 5 Vocational pathway 11 2022/2023	Autumn 1 2022	Autumn 2 2022	Spring 1 2023	Spring 2 2023	Summer 2023	Summer 2023
<b>Functional Maths</b>	<p>Assess pupils to see which Entry Level or Level is suitable Entry level 1 or 2 Begin work on appropriate level</p> <p>Outcomes:</p> <ul style="list-style-type: none"> <li>- To assess and begin Functional Skills in Maths</li> <li>- Number basics and 4 operations</li> <li>- To be able to transfer some skills to real life situations</li> </ul>	<p>Outcomes:</p> <ul style="list-style-type: none"> <li>- To add in from Functional Skills modules</li> </ul> <p>Recognise coins and notes and write them in numbers with the correct symbols (£ &amp; p), where these involve numbers up to 20. ( Entry L1) or 100 ( Entry L2)</p> <p>Write with the correct symbols (£ or p).</p> <ul style="list-style-type: none"> <li>- (E2M12b)</li> </ul> <p>Calculate money with pence up to one pound and in whole pounds of multiple items.</p> <ul style="list-style-type: none"> <li>- (E2M12a)</li> </ul>	<p>Outcomes:</p> <ul style="list-style-type: none"> <li>- To add in from Functional Skills modules</li> </ul> <p>Know the number of days in a week and be able to name and sequence them. (E1M7a)</p> <p>Know the number of hours in a day and weeks in a year. (E2N7)</p> <p>Know the number of months and seasons in a year and be able to name and sequence them. (E1M7b)</p> <ul style="list-style-type: none"> <li>- Read 12-hour digital and analogue clocks in hours. (E1M6)</li> <li>- Read time displayed on analogue clocks in hours, half-hours and quarter-hours.</li> <li>- Understand hours from a 24-hour digital clock. (E2M13b)</li> </ul>		<p>Outcomes:</p> <p>Describe and make comparisons in words between measures of items, including size, length, width, height, weight and capacity. (E1M8)</p> <p>Use metric measures of length, including millimetres, centimetres, metres and kilometres. (E2M14)</p> <p>Use measures of weight, including grams and kilograms. (E2M15)</p> <p>Use measures of capacity, including millilitres and litres. (E2M16)</p> <p>To take the Functional Skills test and pass</p>	
<b>Functional English</b>	<p><b>Intent</b> Assess pupils to see which Entry Level or Level is suitable Entry Level 1 or 2</p> <p><b>Implementation:</b> Students to revise Entry level1 skills. To begin to introduce skills outlined at at Entry level2Use basic punctuation correctly (e.g. full stops, capital letters, questions and exclamation marks</p> <p><b>Impact</b> Begin to work on appropriate level students confident and mastered skills of Entry level1</p> <p>Outcomes:</p> <ul style="list-style-type: none"> <li>- To assess and begin Functional Skills in English</li> </ul>	<p><b>Intent:</b> To use correct grammar outlined at Entry Level 2</p> <p><b>Implementation:</b> Form regular plurals. Use the first and second letters to sequence words in alphabetical order. Spell correctly words designated for Entry Level 2</p> <p><b>Impact:</b> Students confident with entry level grammar and spelling</p>	<p><b>Intent:</b> To be confident at Entry level 2 writing requirements</p> <p><b>Implementation:</b> Communicate information in words and phrases appropriate to audience and purpose. Complete a form asking for personal information (e.g. first name, surname, address, postcode, age, date, date of birth)</p> <p>Write in compound sentences, using common conjunctions (e.g. or, and, but) to connect clauses.</p> <p>Use adjectives and simple linking words in the appropriate way</p> <p><b>Impact:</b> Students confident with requirements of entry level 2</p>		<p>Outcomes:</p> <p>To take the Functional Skills test and pass</p>	
<b>Community Skills</b>	<p><b>Intent:</b> To plan for and undertake a local journey safely</p> <p><b>Implementation:</b> Students will identify 2 ways to travel to Coalville, one being the local bus. They will look at costs and journey times, and undertake a supervised journey, awareness of road safety</p> <p><b>Impact:</b> To develop confidence and knowledge of travel in local area</p> <p><b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b> To plan for and undertake a local journey safely</p> <p><b>Implementation:</b> Students will identify 2 ways to travel to Coalville, one being the local bus. They will look at costs and journey times, and undertake a supervised journey, awareness of road safety</p> <p><b>Impact:</b> To develop confidence and knowledge of travel in local area</p> <p><b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b></p> <p><b>Implementation:</b></p> <p><b>Impact:</b></p>		<p><b>Intent:</b></p> <p><b>Implementation:</b></p> <p><b>Impact:</b></p>	
<b>PE/ Gym Healthy Lifestyles</b>	<p><b>Intent:</b> For students to be aware of the need for personal hygiene, the need to remain hydrated when carrying out exercise and to know how to exercise safely .To attend public exercise sessions and be self motivated.</p> <p><b>Implementation:</b> Students to shower after exercise sessions where</p>	<p><b>Intent:</b></p> <p><b>Implementation:</b></p> <p><b>Impact:</b></p>	<p><b>Intent:</b></p> <p><b>Implementation:</b></p> <p><b>Impact:</b></p>		<p><b>Intent:</b> To explore the outdoors and local community. Students to plan local walks using a map</p> <p><b>Implementation:</b> Students to learn to use a OS map of the local area</p> <p><b>Impact:</b> Students exercising outdoor, exploring the local area and experiencing map reading skills</p>

Post 16 Key Stage 5 Wider Curriculum Map 2022-2023

	<p>appropriate. Students to have an induction to the gym equipment. Students to track and record their own progress.</p> <p><b>Impact:</b> Students to be aware of the impact exercise has on the human body. Students to be involved in recording their own exercise achievements.</p> <p>Health and exercise / personal hygiene</p>					
<p><b>PSHE/ SRE</b></p>	<p><b>RSHE: Marriage and commitment</b>  <b>Intent:</b> To understand more about what it means to be in a committed relationship  <b>Implementation:</b>  <b>Pupils should learn:</b>            That there are different types of committed, stable relationships. how these relationships might contribute to human happiness and their importance for bringing up children. • what marriage is, including their legal status e.g. that marriage carries legal rights and protections not available to couples who are cohabiting or who have married, for example, in an unregistered religious ceremony. • why marriage is an important relationship choice for many couples and why it must be freely entered into. • the characteristics and legal status of other types of long-term relationships</p> <p><b>Impact:</b> Pupils have a greater understanding about committed relationships and how this might impact them now and in the future.</p> <p><b>P&amp;MH: Teams and Triumphs (links to skillsbuilder)</b>  <b>Intent:</b> To explore how working with others can impact on overall happiness and feeling of wellbeing  <b>Implementation:</b>            isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. the characteristics of positive and healthy friendships (in all contexts, including online) including: trust, respect, honesty, kindness, generosity, boundaries, privacy, consent and the management of conflict, reconciliation and ending relationships. This includes different (non-sexual) types of relationship. 28 • practical steps they can take in a range of different</p>	<p><b>RSHE: Healthy relationships</b>  <b>Intent:</b> To learn more about the features of a positive relationship  <b>Implementation:</b>            the characteristics of positive and healthy friendships (in all contexts, including online) including: trust, respect, honesty, kindness, generosity, boundaries, privacy, consent and the management of conflict, reconciliation and ending relationships. This includes different (non-sexual) types of relationship. • practical steps they can take in a range of different contexts to improve or support respectful relationships. that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including people in positions of authority and due tolerance of other people's beliefs.</p> <p><b>For more able pupils:</b> how stereotypes, in particular stereotypes based on sex, gender, race, religion, sexual orientation or disability, can cause damage (e.g. how they might normalise non-consensual behaviour or encourage prejudice).  <b>Impact:</b> Pupils have a deeper understanding about respectful relationships and are able to use this info to behave appropriately towards others and to expect respect from others.</p> <p><b>P&amp;MH: The effects and risks of unhealthy foods</b>  <b>Intent:</b> To understand further how an unhealthy diet can affect our body  <b>Implementation:</b> How to maintain healthy eating and the links between a poor diet and health risks, including tooth decay and cancer  <b>Impact:</b> To make healthy food choices (with support)</p>	<p><b>RSHE: Safe sex and STI's</b>  <b>Intent:</b> To learn about how to be safe, consent and STI's  <b>Implementation:</b>            that all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, e.g. physical, emotional, mental, sexual and reproductive health and wellbeing. • the facts about reproductive health, including fertility, and the potential impact of lifestyle on fertility for men and women and menopause. • that there are a range of strategies for identifying and managing sexual pressure, including understanding peer pressure, resisting pressure and not pressurising others. • that they have a choice to delay sex or to enjoy intimacy without sex. • the facts about the full range of contraceptive choices, efficacy and options available. • the facts around pregnancy including miscarriage. • that there are choices in relation to pregnancy (with medically and legally accurate, impartial information on all options, including keeping the baby, adoption, abortion and where to get further help). • how the different sexually transmitted infections (STIs), including HIV/AIDs, are transmitted, how risk can be reduced through safer sex (including through condom use) and the importance of and facts about testing. • about the prevalence of some STIs, the impact they can have on those who contract them and key facts about treatment. how to get further advice, including how and where to access confidential sexual and reproductive health advice and treatment. FGM.  <b>Impact:</b> Pupils have a greater understanding about the risks associated with sexual activity and how to protect themselves</p>	<p><b>RSHE/ P&amp;MH: Reality v's fantasy</b>  <b>Intent:</b> To learn about the 'fantasy' of some online content  <b>Implementation:</b>            violence against women and girls • online behaviours including image and information sharing (including 'sexting', youth-produced sexual imagery, nudes, etc.) • pornography hat specifically sexually explicit material e.g. pornography presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners. • that sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail he similarities and differences between the online world and the physical world, including: the impact of unhealthy or obsessive comparison with others online (including through setting unrealistic expectations for body image), how people may curate a specific image of their life online, over-reliance on online relationships including social media, the risks related to online gambling including the accumulation of debt, how advertising and 14 Eating disorders and extreme weight loss are a specialised area and schools should use qualified support or advice as needed. Schools may consider accessing support from the NHS or local specialist services who may be able to provide advice and CPD for teachers. 37 information is targeted at them and how to be a discerning consumer of information online. • how to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours.  <b>Impact:</b> Pupils have a deeper understanding that things online may</p>	<p><b>RSHE: Who can help me? (Community support)</b>  <b>Intent:</b> To know who can help in times of need and how to make contact  <b>Implementation:</b> how to: determine whether other children, adults or sources of information are trustworthy; judge when a family, friend, intimate or other relationship is unsafe (and to recognise this in others' relationships); and, how to seek help or advice, including reporting concerns about others, if needed. how to get further advice, including how and where to access confidential sexual and reproductive health advice and treatment where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online) where and how to report concerns and get support with issues online. how and when to seek support including which adults to speak to in school if they are worried about their health how to make a clear and efficient call to emergency services if necessary.  <b>Impact:</b>            Pupils begin to know that there are different services and professionals they can turn to for different things, but that ultimately, school can help with most things in the first instance.</p> <p><b>P&amp;MH: My Body – Signs and Symptoms</b>  <b>Intent:</b> To learn about how to prevent and cure ill health  <b>Implementation:</b>            about personal hygiene, germs including bacteria, viruses, how they are spread, treatment and prevention of infection, and about antibiotics.</p>	

Forest Way School

Post 16 Key Stage 5 Wider Curriculum Map 2022-2023

	<p>contexts to improve or support respectful relationships          how to critically evaluate when something they do or are involved in has a positive or negative effect on their own or others' mental health. • the benefits and importance of physical exercise, time outdoors, community participation and voluntary and service-based activities on mental wellbeing and happiness  <b>Impact:</b> Pupils have a greater understanding of why working harmoniously with others is good for their physical and mental health and good for the 'bigger picture'</p>		<p><b>P&amp;MH: Drugs and the effects</b>  <b>Intent:</b>  <b>Implementation:</b> how the use of alcohol and drugs can lead to risky sexual behaviour.          criminal exploitation (for example, through gang involvement or 'county lines' drugs operations          Law surrounding substance misuse (Contact James Edmonston at Police substance misuse unit for visit)          the facts about legal and illegal drugs and their associated risks, including the link between drug use, and the associated risks, including the link to serious mental health conditions. • the law relating to the supply and possession of illegal substances. • the physical and psychological risks associated with alcohol consumption and what constitutes low risk alcohol consumption in adulthood. • the physical and psychological consequences of addiction, including alcohol dependency. • awareness of the dangers of drugs which are prescribed but still present serious health risks. • the facts about the harms from smoking tobacco (particularly the link to lung cancer), the benefits of quitting and how to access support to do so.  <b>Impact:</b> pupils have a greater awareness of drugs and their effects and are able to make sensible and informed choices</p>	<p>not always be 'real' and how this can affect them.</p>	<p>(late secondary) the benefits of regular self-examination and screening. 38 • the facts and science relating to immunisation and vaccination. • the importance of sufficient good quality sleep for good health and how a lack of sleep can affect weight, mood and ability to learn.  <b>Impact:</b> Recognise signs and symptoms of ill health. Avoid illness or cure illness through action.</p>	
<b>STEM</b>	<p><b>Intent:</b> To understand the need for PPE in the work place. To use hand and power tools safely  <b>Implementation:</b> weekly tool talks and small project to introduce the safe use of tools  <b>Impact:</b> To be confident and safe when using workshop tools.</p>	<p><b>Intent:</b> To use basic hand tools and power tools to create wooden Christmas gifts. To learn to measure in cm and mm and use a set square  <b>Implementation:</b> practical tasks involving measure and the use of a set square  <b>Impact:</b> students able to measure and cut wood accurately</p>	<p><b>Intent:</b> To create garden item, bird boxes planters etc.          To experience house hold maintenance e.g. wiring a plug, tiling  <b>Implementation:</b> Students to research and build garden items. Students to have safety talks and experience basic house hold repair tasks.  <b>Impact:</b> Students have a basic knowledge of DIY tasks.</p>	<p><b>Intent:</b> To create garden item, bird boxes planters etc.          To experience house hold maintenance e.g. wiring a plug, tiling  <b>Implementation:</b> Students to research and build garden items. Students to have safety talks and experience basic house hold repair tasks.  <b>Impact:</b> Students have a basic knowledge of DIY tasks.</p>	<p><b>Intent:</b> To introduce basic vehicle safety checks and knowledge of mechanics tools.  <b>Implementation:</b> introduction to bicycle repairs and car maintenance checks. To include oil level, screen wash levels, tyre pressures and visual checks. Students to be aware of the dangers of car maintenance.  <b>Impact:</b> Students able to select the correct tool to carry out a basic repair to a bicycle and a knowledge of the basic routine checks carried out on a motor vehicle</p>	<p><b>Intent:</b> To introduce basic vehicle safety checks and knowledge of mechanics tools.  <b>Implementation:</b> introduction to bicycle repairs and car maintenance checks. To include oil level, screen wash levels, tyre pressures and visual checks. Students to be aware of the dangers of car maintenance.  <b>Impact:</b> Students able to select the correct tool to carry out a basic repair to a bicycle and a knowledge of the basic routine checks carried out on a motor vehicle</p>
<b>Employability</b>	<p><b>Intent: Unit Planning for progression Unit 201</b> The aim of this unit is to help the learner understand, recognise and build on personal strengths.  <b>Implementation:</b> understand the aims of own study or training programme</p>	<p><b>Intent: Personal finance</b> be able to demonstrate appropriate behaviours for work  <b>Implementation:</b>  <b>Impact:</b> list different kinds of appropriate behaviour in the workplace 1.2 list inappropriate behaviour in the workplace 1.3</p>	<p><b>Intent: Effective Communication</b>  <b>Implementation:</b> be able to recognise different forms of communication          give examples of appropriate verbal communications 2.2 give examples of appropriate nonverbal communications 2.3 give examples of inappropriate</p>	<p><b>Intent:</b> basic introduction for the learner to ICT  <b>Implementation:</b> name two software applications and their uses 2.2 use a software application for an agreed purpose 2.3 input information 2.4 present information for the agreed purpose.</p>	<p><b>Intent:</b> know different ways of applying for jobs  <b>Implementation:</b> give examples of information needed to apply for a job 2.2 complete an application for a job.  <b>Impact:</b> be able to apply for a job</p>	<p><b>Intent Applying for a job</b>          The aim of this unit is to introduce the learner to different ways in which they could apply for a job.  <b>Implementation:</b> present self appropriately 1.2 conduct self appropriately 1.3 give reasons for presenting oneself</p>

Forest Way School

Post 16 Key Stage 5 Wider Curriculum Map 2022-2023

	<p><b>Impact:</b> be able to recognise personal strengths needed for learning and work be able to agree an action plan for self-improvement</p>	<p>give examples of how to dress appropriately for work.</p>	<p>verbal communications 2.4 give examples of inappropriate nonverbal communications. <b>Impact:</b> demonstrate an ability to greet colleagues or customers in an appropriate manner 3.2 demonstrate an ability to respond positively to simple questions from colleagues or customers 3.3 demonstrate an ability to obtain information from colleagues or customers.</p>	<p><b>Impact:</b> list safety points to be remembered when using an ICT system 3.2 follow safe practices.</p>	<p>appropriately 1.4 give reasons for conducting oneself appropriately. <b>Impact:</b> : be able to conduct and present oneself appropriately</p>
<p><b>Young Enterprise</b></p>	<p><b>Intent:</b> Getting started/ Business planning <b>Implementation:</b> Students will be introduced to the YE team programme. Students will review their strengths and assess what they can offer the team company Students will be allocated a team role in the company <b>Impact:</b> To be aware of what a company is . To identify their own strengths <b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b> To plan and produce products or a service <b>Implementation:</b> Students will register the company Identify a company name select a product <b>Impact:</b> students will be aware of the process of setting a small business <b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b> To : To plan and produce products or a service <b>Implementation:</b> Students will <b>Impact:</b> To develop <b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b> To <b>Implementation:</b> Students will <b>Impact:</b> To develop <b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p><b>Intent:</b> To close the company <b>Implementation:</b> Students will sell off remaining stock Students to present their learning to an audience <b>Impact:</b> To develop <b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria</p>
<p><b>Skills Builder</b></p>	<p><i>Intent: developing Problem Solving, the initial stages are about learners being able to explain a simple problem they may have and recognise they may need help. Once learners are able to identify problems, they begin learning how to use strategies to solve simple problems. The next stage focuses on being able to identify complex problems and break them down before suggesting a range of possible solutions. From Step 11, learners focus on using different processes to solve complex problems. Finally, learners are able to evaluate the approaches they have developed to solve problems.</i></p> <p>To work on Team work. learners should show they are able to make a</p>	<p><b>Intent:</b> In Leadership, the first few steps are about developing empathy: learners can first describe their own feelings and then those of others. At the next stage, learners develop their ability to support in decision making and ensuring tasks are completed. From Step 8, learners focus on being able to identify the strengths and interests of the people they are leading, before applying their understanding to effectively motivate their team. In the final steps, learners build their understanding of different leadership styles, their strengths and limitations and how they might be adapted for different scenarios. <b>Implementation:</b> Learner need to identify and name the basic emotions of happy and sad. Secondly, learners need to recognise and communicate how they are feeling to someone they know and trust. So, in introducing this step: • Explore what we mean by feeling happy or sad, using visual aids. Show a picture of a happy face and a sad face and ask learners to name how each person is feeling. • Ask: "How did you know from looking at the picture that they were happy or sad. Elicit feedback, focusing on facial</p>	<p><b>Intent:</b> In the development of 'Listening', the first few steps are about listening and responding to one person at a time. Learners then move to develop their listening in different contexts and use information or ideas they have heard in their own responses. The next stage is focused on the analysis of why a speaker is engaging, being able to explain why they have made particular language or presentational choices. From Step 11, learners are encouraged to engage critically with the content of what a speaker has said. At the top end, learners are able to critically evaluate the success of a speaker across different contexts. <b>Implementation:</b> Share a simple definition of 'instructions': "being told what you need to do." • Give examples of different instructions we might need to follow in life and why it's important to listen to them carefully. For example: "It is important to listen carefully to</p>	<p><b>Intent:</b> presenting The oral transmission of information or ideas. The first few steps are about learners speaking clearly and logically, to communicate their ideas. The next stage is about being able to make appropriate language choices, considering their audience and why they are presenting. Once they have mastered this, learners move on to how to create engaging presentations by thinking about gesture, expression and tone. From Step 9, learners focus on adapting their presentations for their audience. The final steps support learners in developing their own personal presentational style and how to make this effective in different contexts. <b>Implementation:</b> Ask learners to point to the part of the body</p>	<p><b>Intent:</b> To work on Team work. learners should show they are able to make a contribution towards a bigger task as part of a group <b>Implementation:</b> Students will <i>Examples, Put learners into small groups of 2-3. Set them the example that was modelled in 'Teaching it' or similar. Give each learner a few small pieces of paper and each group one larger piece. Explain: "You are going to draw our town (or school/area/local park). I want you to include at least five buildings (rooms/features). Decide which buildings everyone is going to draw on their own and then we will stick them together at the end. Make sure you are not doing the same building as someone else." To scaffold this further, you could provide the list of buildings, rooms or features you want, and give learners a countdown to decide who is doing what before handing out any resources. At the end of the task, get each group to feedback and point out who did what. Ask them to reflect: "Why was it important that you talked to each other first?" 2. Put learners into small groups so they practise working with different people.</i></p>
					<p><b>Intent Creativity</b></p> <p><i>The first stage is about learners recognising and using their imagination to express themselves. The next few steps focus on the learner's confidence to use their imagination to develop new ideas using guidance or existing ideas. From Step 6, learners are able to explain how creativity is useful to help in different areas of life. The next stage is about learners using different strategies for creativity, both when working alone and in groups</i> <b>Implementation:</b> Define 'using imagination': "Using your imagination is about being able to think about something and being able to see it in your head." • Model how we can imagine an object or</p>

	<p>contribution towards a bigger task as part of a group.</p> <p><b>Implementation:</b>  <i>The initial stages are about learners being able to explain a simple problem they may have and recognise they may need help. Once learners are able to identify problems, they begin learning how to use strategies to solve simple problems. The next stage focuses on being able to identify complex problems and break them down before suggesting a range of possible solutions. From Step 11, learners focus on using different processes to solve complex problems.</i></p> <p><b>Impact:</b> To develop Explain what instructions are: "Instructions tell or show us how to do something. They can help us to solve problems or learn how to do something new." • Explain that instructions could include pictures, words or someone telling you how to solve a problem. • Give examples of when someone might use instructions to solve a problem: "A recipe is a set of instructions to tell you how to bake or cook something. A map with directions is a set of instructions to help you find your way to somewhere." • Model following instructions to solve a problem. "I have a problem: I can't draw a face. I am going to follow instructions to help me solve the problem. [Reading]: First, draw a circle. Then, draw two smaller circles for eyes. Next, draw a triangle for the nose. Finally, draw a semi-circle for the mouth." • Highlight the importance of following</p>	<p>expressions and body language. • Model how you are feeling, using a range of communication tools: for "I feel happy", make a big smile and point to the happy icon. You could also do a 'thumbs up' to reinforce this. Then, model how you would tell someone you felt sad: "I feel sad", making a frown, pointing to the sad icon and showing thumbs down. • Share examples of when it might be useful to share how you are feeling. For example, when you are feeling sad because you have hurt yourself, or when someone has given you a gift that made you feel happy</p> <p><b>Impact:</b> To Show how they feel through their body language • Use resources to show how they are feeling</p> <p>• Describe how they feel to someone they know well.</p> <p><b>Evidence required:</b> Observe learners carefully to see if they are able to communicate how they feel non-verbally. For example, do they use eye contact and smile to show you they are happy? • Ask learners to point to or hold up a happy or sad icon face to indicate how they are feeling at key points across the day. • Use questioning to encourage learners to share verbally how they are feeling with you, looking at how the verbal response matches their non-verbal communication.</p>	<p>instructions on how to get somewhere if you don't want to get lost." • Keep instructions short and use connectives: "First, turn to the person next to you and next, tell them what you ate for breakfast." • Post-listening, ask the learners to repeat what they have heard to each other several times to help them remember. • Praise where you see learners following instructions in the order you said: "I saw Charlie turn round before he started talking, well done!"</p> <p><b>Impact:</b> To Understand that a conversation involves more than one person speaking. • Use strategies to help them remember what different people have said and recount this to others.</p> <p><b>Evidence required:</b> Show all of the above – see scheme of work for assessment criteria Do learners pay attention to sounds in different scenarios? How do they show they are listening? • Can learners follow a short rhyme or story and respond to what they hear either verbally or non-verbally? • Observe learners playing or taking part in an activity with a friend. Do they listen and respond to what their partner says?</p>	<p>they use for speaking. • Define what 'speaking clearly' means: "Making sure other people can understand what you are saying." • Model a conversation between two people where speech is not clear. Discuss the importance of using eye contact and speaking at the correct speed and volume. • Ask learners a simple question, such as "What is your favourite colour?" or "What do you like playing?" Encourage learners to answer in full sentences: "My favourite colour is yellow." Build on their response to elicit more information, where appropriate.</p> <p>• Praise learners' use of clear speech, responding to what they say and showing you understand: "I understand; your favourite colour is yellow. My favourite colour is green." Practising it 1. Use toy phones or walkie-talkies, or simply two cups on a piece of string. Model how to take it in turns to speak to each other, listening then responding to each other. Put learners into pairs so they can practise, using the props.</p> <p><b>Impact:</b> To develop</p> <p><b>Evidence required</b>          Use these ideas for ways of assessing this skill step to help you check learners' understanding and confidence. • Observe talk with a partner to check if learners are able to answer simple questions and share ideas. • Observe if they are speaking clearly and are understood by the person they are talking to.</p>	<p><i>This time, set them the task of building the best castle they can in a short time. This could be made of paper, building blocks or other suitable resources. This is a more challenging task as it may require them to wait for other learners to finish their contributions. As such, encourage them to think about fairly dividing the jobs: "Before you start, decide who is going to do what. Is it fair if one person builds the whole castle whilst someone else just makes the flags?" When they have finished, encourage reflection as in 'Practising it'</i></p> <p><b>Evidence</b>          Use these ideas for ways of assessing this skill step to help you check learners' understanding and confidence. • Give learners an example of a big task (tidying the room, building a model car, decorating an outdoors area) and ask them to talk about how they could do this a team: What different jobs could people do? How would they make sure it was fair? • Observe during team activities to see if learners are dividing up tasks. • Observe that each learner is able to contribute to a simple task.<b>required:</b> Show all of the above – see scheme of work for assessment criteria</p>	<p>creature. "Let's use our imagination. Can you close your eyes and imagine you are looking at a nice, little fluffy kitten? What colour is it? Can you stroke the kitten? We're pretending there's a kitten but there isn't one really." • Model how we can imagine a familiar setting. "Now let's use our imagination to pretend we're at the seaside. Close your eyes and imagine you are stood on a beach by the sea. What can you see? What can you hear?" • Explain how we can use imagination to pretend to be someone or somewhere else, and that this is called role-play. "Imagine you are paddling in the sea, let's pretend to take off our shoes. Can you pretend to splash about in the sea?"</p> <p>For this step, verbal assessment and feedback is most useful. • Ask learners to explain what they are pretending to be or do in their role-play activities. Do they show awareness of an imaginary object or setting? • Use teacher observation to watch how learners play and pretend with each other. Do they join in with role play that has been established by someone else? Can they role-play things they know?</p>
